Welcome to the new evolution in  
swimming pool care and maintenance

# Viron Connect

The AstralPool Viron Connect Pool and Spa controller allows you to automate and control your entire swimming pool environment. Integrate all of your pool and spa equipment and operate everything with the touch of a button via the multi-function user friendly touchscreen.

## FEATURES AND BENEFITS

- Connect your lifestyle with hassle free automation
- Integration of entire pool and spa environment
- One touch favourite mode
- Wireless expansion capabilities

Using the latest in technology, the Viron Connect is fully expandable and upgradable and with the use of optional wireless expansion modules, means the Viron Connect can be retrofitted to almost any existing pool environment.

View your pool chemistry, turn on Spa heating or activate multiple products at once using the one touch favourite mode.

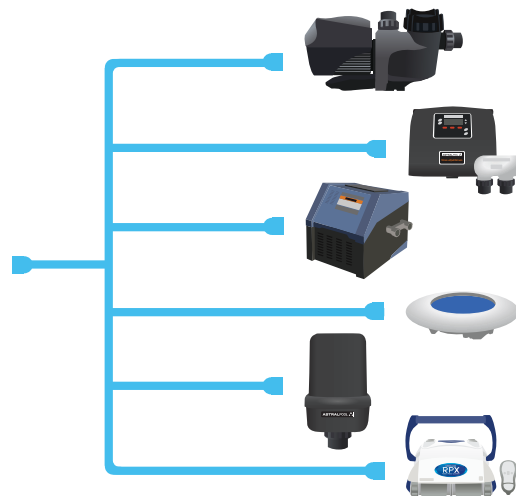

Intuitive programming capabilities means functions can be tailored to suit every lifestyle and every member of your family. Connect and automate your lifestyle today!

Your Pool Equipment

# Internet Gateway

Would YOU like the ability to control your entire swimming pool system from anywhere, at any time? This is the reality when you use Connect My Pool Internet Gateway.

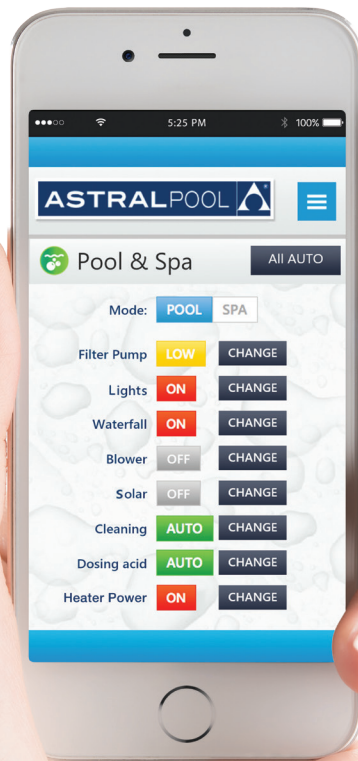

Designed to be used in conjunction with the Connect 10 pool and Spa controller, the Internet Gateway 'APP' allows you to control all of your swimming pool equipment with the touch of a button. For use with either smart phone, tablet, or PC, the Internet Gateway is a user friendly interface that connects your swimming pool system directly to your home computer. The intuitive format will allow the control of your entire swimming pool environment from filtration, to garden lighting, to heating up your spa or pool, all at the touch of one button and from virtually anywhere in the world.

## FEATURES AND BENEFITS

- Connects to existing computer
- Remotely operate entire pool and spa environment
- App to suit PC, Apple iOS or Android devices

INTERNET GATEWAY

# Virtual Pool Care

Welcome to the new evolution in swimming pool care and maintenance – VIRTUAL POOL CARE.

A 'Real-Time' 24/7 monitoring system that enables the pool owner to have their entire swimming pool system monitored, and even adjusted, by a certified Pool shop professional of their choice.

## FEATURES AND BENEFITS

- Live Monitoring 24/7
- Email Alert System
- Monitor - ORP, PH, WATER TEMP, SOLAR
- Industry Leading Technology

Live data streamed directly from a linked pool system will help in enabling the pool shop to keep that pool clean, healthy, and safe to swim in for the whole family.

With the use of Virtual Pool Care, email notifications will be sent to the pool shop if the system needs attention.

Imagine the piece of mind in knowing that your pool is being looked after remotely, 24/7, by your local pool shop professional without you having to lift a finger.
